NEWS OF THE DAY

GENERAL ITEMS.

The funeral services of the late

Achilles P. Russell took place in the

Cathedral at Cincinnati, Ohio, and

were of the most impressive character.

The remains were interred at the

St. Martin's, Brown county, Ohio.

A plover was taken in New York city

three children together preparatory to

plunge into the river. In court the

woman alleged that her husband beat

and starved her, and her husband in

turn declared that she was of unsound

mind.

The Pennsylvania Republican Con-

vention nominated William Lively, of

Pittsburg, for State Treasurer, and

James B. Niles, of Tioga, for Auditor

General. The platform advocates pro-

tection, distribution of surplus revenue

among the States for educational pur-

poses, civil service reform, economy in

all administrations, local and general,

and condemns the trade legislation in

immigration and Democratic legislation in

Pennsylvania.

Bandits in Cuba are terrorizing the

island.

The disorderly Communists were

fined in Bridgeport, Conn., for distur-

bung the peace of that city.

A party of five masked burglars,

after breaking and entering two families,

forcibly entered the First National Bank

at Franklin, N. Y., on Wednesday morn-

ing, where they blew open the safe with

dynamite and secured \$1,000 in silver.

Five Jewish pauper families from

Poland, who had been sent to this

country by a charitable society in Lon-

don, were immediately returned by or-

der of the Emigration Commissioners in

New York, to the steamer Lydian Mon-

arch, which had brought them over.

The Jewish relief society in N. Y. city was

unable to assist them.

An excursion train, containing about

seventy-five members of Masonic lodges,

collided with a freight train on the

Buffalo and Southwestern road, Wednes-

day morning, two miles from James-

town, instantly killing George Gales,

conductor, and M. D. Colby, brakeman

of the freight train, and fatally injuring

W. J. Innes, another brakeman. No one

was hurt on the excursion train. The

engineers and firemen on both

trains saved themselves by jumping.

A freight and gravel train on the

Albany and Susquehanna Railroad col-

lided near Bainbridge Wednesday morn-

ing. Six Italian laborers were injured.

It is estimated that the crop of win-

ter wheat in Illinois will be over thirty

million bushels less than the yield of

1882.

A train on the Natchez, Jackson

and Columbus Railroad fell through a

bridge fifty feet high. The conductor

was killed and several passengers in-

jured.

All the miners arrested at Ely, Vt.,

were discharged.

In an impromptu shooting affray,

near Junction city, Texas, one of the

parties was mortally wounded and the

FRIDAY, JULY 20, 1883.

Visits to Hartford Cold Spring.

BY OUR PARIS CORRESPONDENT.

Your correspondent and his chum started from Paris Hill about 8 o'clock July 15, on a visit to Hartford Cold Spring which is situated in Hartford. The day was all that could be asked, and after a pleasant drive of about two hours we found ourselves before the residence of W. B. Bicknell, president of the Hartford Cold Spring Co. We were heartily welcomed by him, myself being an old acquaintance and a brother in "F. H. & C."

After a few moments chat we were shown to the Spring by H. A. Bicknell, secretary of the Co. The Spring is 64 feet deep and is surrounded by granite. The water is conveyed by a rubber pipe to the packing house whither we next went. There the water is held in a large granite tank from which it is lifted.

The water is put up in two forms. It is bottled and bottled in its natural state and used very extensively for table use. It is also charged and bottled. The charged water is the same as the other only it is strongly charged with carbonic gas.

An invigorating beverage is made by mixing with the charged water a syrup made from ginger, ex. lemon and granulated sugar and called "Ginger Ale." It is wholly free from anything that can intoxicate and no one need fear to drink it. The demand for the water and ale is so increasing that they will have to double their crew for packing in about a week.

The first lot of this water was sent to Boston in Oct. 1881. The first bottled water in Sept. 1882. A stockholders meeting will be held the first Wednesday in August. Boston parties contemplate building a large hotel near the spring this fall. A new and much larger building for packing is being built and is nearly completed.

Before leaving we again called to see W. E. Bicknell, alias "Hartford," the correspondent, and examined many of his beautiful specimens of pen work. Among them we noticed the Lord's Prayer printed by his pen so small that a common cent would cover it. I would like to give a further description of his collection, not only of his pen work but of minerals and curiosities from all over the world, but space will not allow.

BY OUR BUCKFIELD CORRESPONDENT.

Three miles from Buckfield Village, situated upon a prominent eminence commanding a grand and extensive view of the surrounding country, is the Hartford Cold Spring. On a pleasant July morning it was our privilege to visit this resort. The drive from Buckfield is well worth the time devoted to it even was there no attraction at the end of the journey. The scenery is such as to afford pleasure to any who are not blind to the beauties of nature, while the clear, bracing atmosphere among the ranges of hills which this famous Spring finds its source, is healthful and invigorating. Some of the remarkable characteristics of the Spring are that neither the coldest days of winter nor the hottest days of summer have any perceptible effect upon the temperature of its water. It never freezes. It never becomes warm. Being remarkably clear, it is also remarkably healthy. It has for many years had a local reputation for purity and general excellence but true merit cannot always be confined at home. By what might be termed an accident, perhaps, a barrel of the water was sent to Boston in the fall of 1881. Its merits got abroad and since that time its growth in popularity and the increase of its sale have been almost unappreciated. At our recent visit we found that the water was being bottled and shipped at the rate of about two thousand bottles per day and that even this rate was insufficient to fill the constantly increasing demand. The facilities for bottling and shipping the water are soon to be considerably increased and a new building is now in process of erection to accommodate the business. A store-house is also to be built at Buckfield by the Hartford Cold Spring Co. and the Hartford Cold Spring Co. is now in process of erecting a large hotel. It is thought that a large hotel will be erected at the Spring by another season. We were informed by the gentlemanly Secretary of the Company that the sales for the month of June amounted to over twelve hundred dollars. It was our good fortune, while at the Spring, to meet the venerable newspaper correspondent, William Bicknell, so long known through the papers of this section under the nom de plume of "Hartford." He is now in his 80th year, yet his faculties seem unimpaired and his memory of events as well as his excellent handwriting is an example which few of our younger men would find difficult to equal.

SOUTH PARIS.

Deceased on last week. Harry Stowell has so far recovered from his sickness as to be able to ride out.

No one can view the extensive improvement now being made in our century without a feeling of gratitude to our oldest citizen whose generosity makes them possible.

Mr. Dudley has completed the stone-work on our new school house, and Mr. Maxim will place the sills and commence putting up the frame tomorrow.

Mrs. Wm. Cummings has been suffering for the past week with acute neuralgia. We learn she is much better.

"The Beehive" is receiving repairs. Among the latest novelties in imported pets are two horned-toads which Frank Shurtliff has just received from Colorado. They are on exhibition at "Gerry's."

Very large quantities of hay are being harvested. Some of the farmers will finish this week, but with many it will take two weeks longer.

Chas. Langmaid was in town last Monday. N. Mason has a new span of dark brown horses.

E. M. Thayer has a nice apple brown stylish looking coat. We observed him shaking out Spirit of 76 the other night and verily he moved like a spirit.

Mr. Elifina Morse was in town last Tuesday. Chas. Brown, and wife were in town the first of the week, visiting relatives. W. A. Frothingham sold twenty-five moving machines this year. Next

The frame to the school house is up and the building grows apace.

Frank is repairing the Foster house, bay window, piazza, etc. Frank will soon have a nice place.

Eugene Fletcher sports the finest work team and harnesses ever seen in our streets. J. D. Williams "made em," the harnesses, we mean.

Chas. W. Bowker took a trip down East, last Saturday, and turned up bright and smiling Monday morning. Geo. Jones' horse ran away the other morning, no damage.

Last Saturday eve as Joseph Tufts was driving by the hardware store the axle in his near forward wheel broke and let himself and wife down. The horse ran and dragged the wheel into the Post Office, when some one caught him by the head and stopped him. Mr. T. was considerably bruised.

We saw Eugene Roods manipulating the ribbons behind a black roan that acted very much like a trotter, the other day.

Mr. A. Mixer planted four quarts of peas, "Carters' First Crop" and has thus far harvested eight bushels and three pecks besides saving one row, which is one twelfth of the piece, for seed.

Says the *Squid*, Rev. Ira G. Sprague, of the Methodist church, Auburn, is spending his vacation at Squirrel. Mr. S. is a good mackerel fisher. Wednesday evening he supplied the Islanders with fresh mackerel from his own hook.

The worthy pastor is we doubt not fishing as vigorously for the church as he is for the trying pans of the Islanders. Later, Mr. S. says, the *Squid* ought to have given a part of the credit of the catch to one hundred and sixty-three mackerel to Mrs. Sprague and the children, who did valiant work with the lines. Mr. Sprague and family returned from Squirrel, Saturday.

Mr. Ryerson of Lewiston was in town last Wednesday trying to arrange for a two days trotting meeting to be held at the grounds between So. Paris and Norway.

E. Rood has taken the Drokos horse to Portland to be sold.

OXFORD.

Joseph Dyer, a boat builder, is about finishing a propeller for Morris Clark. The boat is after the pattern of a steam yacht and is capable of carrying some forty or fifty passengers. It will carry parties to the hotel on Maguire Island.

A. G. Hines, at the hotel, has some very fine colts. They were sired by his Hamiltonian stallion.

Thos. Baker makes a big show on his 5, 10 and 25 cent counters. You would be surprised to see the many useful things that can be purchased for a whole or half dime or a quarter dollar. He has almost everything. It is a great attraction for the ladies. Just step in and see those toilet sets. He has many pretty designs and they can't fail to please. Just say you saw this in the OXFORD ADVERTISER.

Owing to the unusual press of passenger and freight traffic on Thompson's Pond this season a new and larger steamer will be put on about Aug. 1st. J. K. Chase has sold over 400 picture-frames during the past three weeks.

Merrill Brackett recently cut two acres of short grass, rather hard mowing, in one hour and thirty-five minutes.

Quite a number of buildings were re-shingled just before hay-time. Miss Lizzie McAlister has returned from a short visit to her father's at Freedom, N. H.

The "Oxford Game & Irish League" will put up a small summer house on Goat Island.

Chancy Varnam has returned and gone to work in the factory. John Robinson has sold his "Hebron colt" for a little over \$400.00.

A few years ago A. F. Hinds cut with a scythe 64 acres of grass in nine hours.

During the terrible thunder shower of the 12th inst. four very valuable colts owned by John Robinson, Levi Dingley, Fletcher Scribner and Ed. Weston were killed by lightning while standing under a tree in Ellis Stone's pasture, Oxtield.

Police Inspector, O. M. Hanson, of Boston, and family are visiting his father's, Moses Hanson.

Money is so plenty in this village that it can be found laying round loose in the street almost any time. Over \$8.00 in small change have been picked up in the road since June 1st.

Do you want to know what your neighbors are doing? Do you want to get the first news of every thing that happens in Oxford County? If you do this paper is for you. It contains more local news from this section of the county than any other paper published. For only 25 cents you can try it three months and judge for yourself. Try it. The large mill of the Mossman Manuf. Co., Hartford Mills, is of the all up. Many of our best young men are at work upon it.

A three days unexpected rain, just at the time when the largest burden of hay for the season was down, has done a good deal of damage in this vicinity. The tax collector is going his weary rounds.

G. H. Jones brings in the first string of black bass.

PARIS HILL.

O. A. Thayer is closing out the goods in his store. He is the inventor of a ladies work table with folding legs. It is a very neat and handy table, and there is no doubt he will get a patent on it.

The will of the late Joseph S. Walker was presented for probate last Tuesday and the acceptance of the same was resisted by Mr. Walker's sister, Mrs. Eliza A. Chase, who claimed that the will was made under duress. The hearing occupied considerable time. Hon. D. K. Hastings of Fryburg and Judge Walker of Bridgton appeared for the probate of the will and Hon. Enoch Foster and Seth W. Life of Fryburg for the resistance.

The summer term of school in District No. 1, taught by Miss Helen A. Johnson, closed June 15th. This was the teacher's second term in her own district and her efforts have been very successful. Thoroughness in each branch of study was noticeable at examination. Singing received proper attention and study in all our schools where the teacher is well qualified. The school-room was tastefully trimmed with evergreen and decked with wreaths and flowers, giving the visitors a cheerful welcome to the closed school.

There is music in the air,—beetles by night and moving machines by day.

Mr. Briggs has a piece of potatoes planted May 24th in a row with six weeks and five days he dug a potato that measured 54 inches around. He also has cherries ripe now, Early Richmond and May Duke varieties.

PARIS-HARTFORD DISTRICT.

Mr. George Maxim met with an accident two weeks ago. He was leading his horse when the horse jumped and threw Mr. Maxim down hurting his head and shoulder quite badly. The horse was cropping the leaves from some fallen bushes and dragged a bush which came into him to become frightened.

School closed in dist. No. 8 June 23, taught by Miss Apphia J. Parsons. This was the last term, when the exercises were very interesting, consisting of readings, recitations and other exercises by the children, and lastly the distribution furnished by scholars and friends, all of which was enjoyed by quite a number of parents and invited friends.

School in dist. No. 15, taught by Miss Flora Maxim, closed July 6. This was her first term. We doubt not but it was a profitable term to the scholars.

Frankie Briggs has a hen that weighs 19 oz. In twenty-five days she laid 16 eggs the total weight of which was 20 oz. He wants to from some other boy.

HEBRON.

This pleasant town attracts as usual people from the cities who enjoy its scenery.

Miss Emma E. Young, a teacher in Portsmouth, N. H., who has spent several summers here, has come again with her mother and niece and they are making their home at Miss Bailey's.

Our boys from "Colby" are at home spending their vacation having.

Miss Bertha Everett is teaching in Backfield.

Mr. H. L. Whitney, of Boston, has bought of Mrs. Penley, the place now occupied by Mrs. Bray and intends to make improvements.

Mr. Silvanus Pearce has much improved the appearance of his house by repairs and painting.

The school in dist. No. 5, taught by Miss Lizzie Young of Livermore, finished Friday the 13th, after a most satisfactory term of nine weeks.

William Flinnay has sold eleven Buckeye mowers and five Tiger rakes this season.

John Howe turned his mare into his back pasture some time ago and as it was some distance from the house he did not look after it as he should. One last week she came down, he saw she had fouled and very soon after the hill and found the cold dead and partly eaten by some animal.

The rainy weather of last week caught considerable hay in the fields.

We took a trip to Bethel last week, down the other, a very pleasant trip this time of the year. The grass is tall and stout and the crops of all kinds are looking excellent. We saw a number of heaving full as many we think as we did having, though the moving machines were clicking on a number of farms, which we passed. We saw several fine pieces of squashes, or in fact a good many pieces which we learn are to be sent to the Boston and Lewiston market when ripe. Prices vary from 24 to 8 cents per pound.

We heard that last week an engineer would survey the route for a R. R. from Bryans Pond to Andover, but he has not been on yet.

It is almost impossible to get help for haying. Wages high, \$2.00, \$2.50 per day.

S. S. Silver, on account of ill health, intends to sell his farm.

Some fields of corn are tasselling out. Peas, beans, cucumbers and early squashes are in bloom. Apples are falling off badly and the crop will be light. Many pieces of oats are heading, spring rye is looking fine. Strawberries are ripening and the bushes are loaded.

The school taught by Miss Minnie Abbott, at the Point, finished Friday. They celebrated the last day by having a picnic in the grove.

Mrs. Lydia Simpson, one of the oldest persons in Hebron, died Sunday, the 12th inst. She was 92 years of age, of typhoid fever. She was sick a week or ten days. The last thirty six hours of her sickness, she neither spoke, moved or took any nourishment. She apparently did not know any one. She lived to a good old age between 90 and 100 years, her mother lived to be 104 years of age. The funeral took place Monday at her house at 1 o'clock P. M.

Bethel.

A big sensation was caused Wednesday by a woman getting lost in the woods a few miles from this village. Peggy Quirk, sister of Michael Quirk, about seventy years of age, was picking potatoes in a field back of her house, and as it was a goodly lot, she is subject to them. After coming out of them she usually started on a run in any direction she happened to take, and after exhausting herself in that way, generally lost her way. The potato field being near the woods, she probably took that course and became bewildered and lost, and night coming on, she wandered all night through the forest, and being partially deaf and blind, she was unable to find her way. She was found by some one in the morning and taken to her home. She was very much frightened and was very much surprised that so prudent a man should have been duped into a coast with such a glass ball sharp as Foster's.

Having fairly commenced and everybody is driving business, and as a consequence haying tools are booming. Farmers seem to keep up with the times in using improved implements and machinery. Mr. Alfred Chandler tells me he has sold near four thousand dollars worth of mowers and rakes alone, and besides there are two regular hardware stores in the village where those machines are sold. The hay crop and every other crop are coming in abundantly except the apple crop, which seems to be blighted. The trees blossomed out beautifully but did not set.

The Congregational Circle has purchased an Essex organ for their vestry. They meet every Thursday afternoon and picnic at six, and manage to have a good time as well as to recruit their resources.

Summer visitors from the cities are rapidly filling the hotels and private boarding houses, and on all the thoroughfares leading in and out of town, gay teams and gay people may be seen taking their airings among the many places of interest in the surrounding country.

Will give you a fine or pay back your money. NOYES' DRUG STORE.

Norway and Vicinity.
John F. Fitz is taking a vacation.
Buy your flour at Whitcomb &
Locke's. See ad.
Screen Cloth and Clothes Ringers at
Crocker's.
Isn't it about time for "Ye Old Folks"
to have a concert?
Blueberries are being brought in but
as yet are not very plenty.
E. B. Tubbs has been putting in new
timbers and floors in one of his barns.
Mr. A. M. Dunham has one of the
best looking flocks of grass we have
seen.

The Norway Nine go to Bridgton to-
morrow afternoon to play with the
Nine at that place.
Charles Brann of Skowhegan is
working at the corn factory making
cans.

Rev. W. P. Barnell, of Clyde, Ohio,
preached at the Universalist Church,
last Sabbath.
Mrs. Abigail Hamblin and grand-
daughter, go to Lewiston to work in
the Bates boarding house.

Mrs. Chas. E. Gammon recently
picked a bunch of clover which had 3,
4, 5 and 6 sets of leaves on as many
stalks.

At the Academic graduation at No-
Bridgton the Class Ode was written by
Merton L. Kimball, son of A. S. Kim-
ball, esq.

Mrs. C. A. Briggs of Paris kindly
remembered us by leaving at the office
some cherries. The ones were very nice.
Please accept thanks.

Last Sabbath we noticed at the Uni-
versalist Church a very pretty anchor
made of pond lilies and a few roses.
It was made by Fred Cummings and
showed much care and skill.

The crops on Crockett Ridge are
looking fine. With good weather for
having a splendid crop of hay will be
put into the barn.

The well near the road in front of
Mr. James Bennett's has been dug
nearly 100 years. The water is
good, as can be found in any well in
town.

We noticed a large number of bee
hives at Mr. R. S. Freeman's the other
day. Mr. Freeman has kept bees for a
number of years and finds it profitable.

Mr. S. I. Millett has an excellent
grass and stock farm. He keeps a
large number of sheep and cattle and
is one of our most successful farmers.
Mr. Millett is also one of Norway's
best business men.

Messrs. Freeland Howe, S. B. Locke,
H. M. Beare and Geo. L. Beal have
recently bought a "Banyan" boat.
Built at Indian Rock by Baker Tutts.
It is a lap-streak craft.

J. O. Crocker has a new ad. this
week. In fruit cans he has a large
stock and the price is so low as to war-
rant a quick sale. One thing buyers
must guard against is to keep fruit to per-
fection.

Crockett's Yellow Dock Bitters are
finding their way out into the world
and making many wonderful cures.
They are one of the best bitters in the
market. If your appetite is poor or
you are ailing try a bottle.

Mr. E. N. Clement and "Dick" with
friends from New Jersey, Lee Sim-
monds and A. K. Prince, went on a
fishing trip to Andover last week.
They report capital luck.

The Advent meeting at Grange Hall
last Sabbath was well attended, and
the services listened to with much in-
terest. There will be another meeting
in four weeks.

Mr. L. I. Bartlett says, "An old man
and his wife made us a short visit this
week that have married fifty-seven
(57) years and the excellent possession of
part of this long married life is that
they haven't been divorced once."

Mrs. Freeland Howe caught a two-
and-a-half pound bass Wednesday
night of last week. Mrs. H. was in the
boat alone and she and the fish had a
lively time resulting in the breaking of
the rod and the landing of the bass.

Among the thriving farms may be
noticed the Young farm, owned by
Pearce & Horne, and the present year
carried on by D. S. Davis upon shares.
In visiting the farm no one would dis-
cover any lack of interest in its man-
agement for owner or tenant. There
is kept on the farm quite a stock of
cattle, horses, sheep and swine. Thir-
teen cows of the different breeds are
kept for the dairy, four horses, twenty-
five sheep, several swine, three bulls—
one full blood Durham, one full blood
Jersey and one grade Durham, with
oxen and young stock, making in all
nearly one hundred animals kept on
the farm. They have under cultivation
this season three acres in soft corn and
three acres in wheat, with potatoes
enough for the use of the farm. But
the principle appearance of the farm is
the field of seven acres. There are many
good fields of grass in town but they
rarely find so large an area of first class
grass in one group of fields. There is
also a meadow with the farm which
will yield about the same quantity of
hay and when it is all gathered in will
no doubt fill the capacious barn to its
brim if not overflowing.

Why can't we have our streets fixed
up just a little so that a man can ride
or even walk through them and not
feel sea sick.
Nute says, it is an actual fact, that
Dr. Young did pull the plug and let
out about two gals. of ice cream just to
lighten his load.

The picture of the six pound trout
recently caught by Mr. F. H. Howe
should have been life size of painting
instead of a photograph as stated in
last week's paper. It was painted by
S. W. Griggs of Boston.

George Andrews has returned from
Nebraska, where he has been on a tour
of inspection for the past four months.
He reports a pleasant trip and a fine
farming country in that distant land.
He says the Burnham boys are doing
nicely and making heaps of money.
The Force was well played and al-
together the large crowd passed a
pleasant evening.

Steep Falls.
There is some question about the le-
gality of the vote passed at the school
meeting last Saturday, whereby it was
voted to borrow money to build an ad-
dition to the academy, as the Statutes
read, Chap. 11, Sec. 48: "School dis-
tricts may borrow money for building a
new school house or purchasing a lot for
the same, but for no other purpose."

J. K. King, a native of Paris, and
now a resident of Portland, was in
town this week the guest of his niece,
Mrs. E. H. Brown. He will spend a
few days with his brother, Wm. O.
King at the old homestead in Paris.

There was a very large attendance at
the Temperance meeting last Sunday
afternoon. President John Devine
presided and short speeches were made
by E. H. Brown, J. A. Brown, Osgood
French, Rev. Mr. Burnell of Ohio, Mrs.
M. O. French and others. Miss Lelia
Lewick and Claude Cox, Willie D.
Lewick, John Hussey and Arthur Tracy
were not absent but one half day.

We have just received from the ad-
vertising agency of C. S. Gosse, 44 Kil-
by Street, Boston, a very pretty card
showing the cost of advertising in the
leading Boston Dailies. Mr. Gosse is an
energetic and enterprising news-
paper man and a careful and pains-
taking advertising agent. We are pleased
to find that his business has increased
more than doubled within the past year. He
handles some of the first advertising in
the New England States.

The summer school at the Center of
the town, in district No. 3, taught by
Miss Florence Andrews, has closed.
Eighteen pupils were registered, the
average attendance being sixteen. Six
scholars were not absent during the
term. This was Miss Andrews' first
experience as a teacher and she has
been very successful. The pupils and
her charge made excellent progress
and the school in every respect was
satisfactory. A number of visitors at-
tended at the close of the term on ex-
amination day and were highly pleased
with the exercises. Miss Andrews is a
fine scholar, having graduated last
spring from the Norway High School
as the valedictorian of the class, and
will make an excellent teacher.

The following officers of the Penne-
sessewasse Lodge No. 1, of F. were in-
stalled on Wednesday evening, July 12:
H. H. Jones, P. M.; A. S. True, V. M.;
S. S. Crockett, M. of F.; C. G. Ma-
son, M. of E.; Frank Seavey, M. of A.;
Geo. A. Wilkins, L. G.; Nathan C. Mc-
Keene, O. G.

A school meeting was held at the
Academy, Wednesday evening of last
week and A. S. Kimball, Esq., was
chosen moderator. A vote passed to
build an addition to the Academy and
\$2500 was raised for that purpose.

W. F. Fox, S. D. Andrews, S. D.
Truett, C. N. Tubbs and Gen. Beal
were selected as a building committee.
It was decided to admit scholars living
in other towns into the schools of the
district on the following terms: High
school \$8, \$5. Other schools a sum
equal to the one apportioned to a
scholar. It was voted to establish
another Primary School. The meeting
adjourned to Saturday evening, July 14.
The adjourned meeting Gen. Beal
declined to serve on the building com-
mittee and Mr. J. W. Parker was
selected in his stead. The vote passed
at the previous meeting to raise \$2500
was reconsidered and \$1000 was raised
by tax on the lot and \$1500 by loan. The
meeting then adjourned without day.

The summer school in district No. 9
taught by Miss Ellie S. Swan of the
graduating class of '83, Norway High
School, closed on Friday of last week
after a very successful term. The
whole number registered was 15.
Average attendance 14. The following
pupils were not absent one half day
during the term: Gardie Frost, Lillie
Frost, Maud Frost, Sadie Frost, Virgie
Frost, David Frost and Harvey Frost.
The exercises were very interesting
and did credit to both pupils and teacher.
The examination in the different
branches taught was very good—Arith-
metic, Grammar and Geography being
excellent. The scholars showed a
thorough drill in practical methods and
principles and a good understanding of
what had been studied during the term.
We were much pleased with the oral
exercises, which of late years have been
made a very prominent feature in
school-teaching by our best instructors.
This is one of the best schools we have
visited this summer. Miss Swan man-
ages a school admirably and we came
away with the most excellent impres-
sion of her pupils and their teacher. Quarrels
& jars never enter into the management
of the affairs of this district and as a
consequence there are good schools and
a first-rate class of scholars.

We recently visited Otisfield, Me.
We carried a large box home. This
young man is not constitutionally lame
or tired but from the effects of a blister-
ed heel he has a bad foot and leg. He
works in the shoe factory and his name
is Harvey Skillings. We think a few
days rest with a mother's care will
bring the foot out all right. We passed
the home of Miss Mattie Sawyer, the
Advertiser's correspondent of that sec-
tion but did not call for it was on
the Lord's day and was pressing out.
The correspondent was at church. We
stepped into the burying-ground and
read the names chiseled on the marble
slabs. They were all strangers to us.
Many of the pioneers of this section of
Otisfield are buried here. The An-
drews', Jordans', Wardwells', Bretts'
Cleave's occupy a large portion of the
yard. The brick receiving tomb is a
little out of repair, judging from the
decayed appearance. Blackberry bushes
through the yard grow luxuriously.
The newly made graves with vases of
flowers on them show that loved ones
recently departed have found a final
resting place there. We noticed that
farmers were securing hay that had
been cut the Thursday before. Mr. L.
T. Brett has a fine set of buildings and
very many splendid looking apple trees.
The new house on this house is magnificent.
The field crops looked well especially
the beans. It is estimated that some
25 or 30 acres of beans are growing in
this section.

The novelty in the way of an Even-
ing Lawn Party which took place
Wednesday evening under the direction
of the ladies of the Universalist Ladies
Circle was a success. The occasion was
marred only by the fact that there
were more than enough people for the
amount of food. Ice cream, however,
was given for each supper ticket that
had failed to draw a prize of beans.
The music by the Norway Brass Band
was excellent and sounded especially
well in the open air and pleasant scene.
The Force was well played and al-
together the large crowd passed a
pleasant evening.

Steep Falls.
There is some question about the le-
gality of the vote passed at the school
meeting last Saturday, whereby it was
voted to borrow money to build an ad-
dition to the academy, as the Statutes

the beans. It is estimated that some
25 or 30 acres of beans are growing in
this section.

Mrs. B. F. Bates and son of New
Haven, Ct. are visiting friends in Paris.
They are now staying at Snow's Falls.
The father is a very heavy hunter
shower here Saturday, p. m.

YAGGER.
One of the most pleasantly located
farming districts in the town of Nor-
way is the district called Yagger. It is
on quite an elevated ridge of land, and
the farms, some 8 or 10 in number, all
indicate good husbandry and thrift,
and while passing through such a dis-
trict one might almost cover the luxu-
rious joys of a farmer's home. But
even to place like this it is not like
Paradise "before the fall." The ser-
pent will creep in and participate of
the forbidden fruit. Mrs. Robert Hall
occupies one of the farms named, and
the farm, some 8 or 10 in number, all
indicate good husbandry and thrift,
and while passing through such a dis-
trict one might almost cover the luxu-
rious joys of a farmer's home. But
even to place like this it is not like
Paradise "before the fall." The ser-
pent will creep in and participate of
the forbidden fruit. Mrs. Robert Hall
occupies one of the farms named, and
